

CHRISTOPHER HEIGHTS™
AN ASSISTED LIVING COMMUNITY

Coronavirus (COVID-19) Response and Updates about our Communities

Update March 23, 2020

As we enter our 2nd week of restricting visitors and adjusting to our new way of meal delivery and conducting activities our staff and residents are getting into a routine. We have seen incredible understanding from all of you and are grateful for our staff's dedication to our residents and each other. Our staff continues to go above and beyond to ensure our residents are well cared for and safe. We are regularly checking in on our residents to help with any concerns they, or you, may be having during this pandemic. I am heartened by our community's response to this global situation. I've been asked "how can we help"? While we currently have sufficient inventory of critical items to keep our residents and staff safe, one way to help would be to donate any of these critical supplies you may have in your home.

Our asks include:

- Hand sanitizer
- Masks
- Gowns

Should you have any of these items you'd be willing to donate please reach out and we can figure out a way to best get them into our community.

We know this is a challenging time for everyone, however, it is important that you take good care of yourself. Please know we are all in this together.
